Take your measurements normally with a tape measure or too tight or too loose for3A3D47Take your measurements much tending the tape measure to1256And add 2cm to6. Take the bottom width8you want ( Greater than 28cm )

## You choose to customize without follow our advice

Be very specific about your actions, and complete the scheme of taking measurements from 1 to 8

## To take your measurements with a tape measure of dressmaker

Handling the measuring tape is very flexible, depending on the tension you get a gap of **0.5 to 1cm**. **Example : Normally 50cm - slightly tending 49,5cm - much tending 49cm**.

## To set the waist height

**Low waist**, **3D** is between **15cm** and **22cm** minimum maximum.

Normal waist, 3D is between 20cm and 30cm minimum maximum.

High waist, 3D is between 25cm and 100cm maximum minimum.

Generally, **3D** should be equal to or less than **3A** 

# YOUR MEASURES

[To take your measurements, you need to be assisted by a person]
